This temporary insurance terminates however on the earliest of the following dates:

- the 90th day following the date on which you signed the Insurance Application;
- the date on which we accept or deny your Insurance Application.

Important: Temporary insurance **does not apply** if you complete the Insurance Application **after** the date on which you signed the financing agreement.

7. What you need to know

- **Pre-existing medical conditions**

Your benefit claim could be denied if it is related to a health problem for which you were diagnosed or had symptoms in the 12 months prior to the effective date of insurance, if the event that is the subject of the benefit claim occurs in the 18 months following the effective date of insurance. Refer to the definition of pre-existing medical conditions in **Part 3 - General Provisions** of the group credit insurance certificate model on our website.

Example:

Effective date of insurance: September 1, 2020

Sept. 1, 2019 → Sept. 1, 2020 → March 1, 2022

Pre-existing medical condition	Insurance in effect
In the 12 months prior to the effective date: Diagnosed or symptomatic	In the 18 months following the effective date: Occurrence of the event that is the subject of a benefit claim

- **If more than one person signed the financing agreement**

No more than one benefit is payable and will be paid according to the order in which the claims are received.

- **Late payments**

The insurance benefit in no way covers payments in arrears under the financing agreement or any accrued interest thereon.

- **False declarations**

Voluntarily omitting information or providing false information could result in your benefit claim being denied and your insurance coverage being cancelled.

8. How to submit a claim

Call 1-877-451-3888 to obtain a benefit claims form.

In addition to the benefit claims form, you will be asked to provide all corroborating documents.

We will examine the benefit claim upon receipt and send a response within 30 days, provided all necessary documents are received.

If we deem the benefits to be payable based on the information provided, we will issue a cheque **payable to the creditor** in the 30 days following receipt of the benefit claim and send you a confirmation of benefit payment.

Denied claim

If the benefit claim is denied, you can request a review.

To do so, you must:

- explain why you want the claim to be reviewed; and
- append all additional corroborating documents.

9. Your right to terminate the insurance

You may terminate your group credit insurance at any time.

You have 20 days after signing your insurance contract to cancel the coverage, without penalty. To do so, you must use the *Notice of rescission of an insurance contract* that was given to you upon signing the Insurance Application.

After this period, you must use the *Notice of termination of an insurance contract*

that will be provided by the distributor. In this case, your reimbursement is calculated using one of the two methods below, depending on the creditor. To find out your reimbursement amount, please call us at 1-877-451-3888.

Calculation Methods:

Method 1		Method 2
Calculated according to Rule of 78 , reduced by:	OR	Prorated to the number of months during which the insurance was in effect.
<ul style="list-style-type: none"> all benefits paid under this insurance, and a \$125 termination fee. 		

Rule of 78 is a standard mathematical formula used in the industry to calculate the unused portion of a premium.

It is defined as follows:

$(\text{Premium} - \text{Policy fee}) \times ((A - B) \times (A - B + 1)) / (A \times (A + 1))$, where:

- A = term of insurance (in months)
- B = number of months during which the insurance was in effect.

Example:

- Premium (cost of insurance): **\$1,000**
- Policy fee: **\$75**
- Term of insurance: **48 months**
- Effective date of insurance: **January 1, 2020**
- Insurance termination date: **July 1, 2021**
- Number of months the insurance was in effect: **18 months**
- Termination fee: **\$125**

Premium reimbursement calculation:

$$(1\,000 - 75) \times \frac{(48 - 18) \times (48 - 18 + 1)}{48 \times (48 + 1)} - 125 = 240.75$$

The amount reimbursed is equal to **\$240.75**.

The reimbursement rules are stipulated in **Section 5 - Premium Reimbursement** of **Part 3 - General Provisions** in the group credit insurance certificate model available on our website.
